

National RN Case Manager Certificate Program

Practice Development Activity: RNCM Leadership

RNCMs can make a unique contribution to achieving the goals of improved

health and efficient and effective health care systems at the local, state and national levels.

Since the release of the first Future of Nursing Report in 2011, there has been a national initiative to increase the number of nurses serving on boards. The Nurses on Boards Coalition is charged with improving the health of communities through the service of nurses on boards and other bodies. RNCMs are well suited to serve on community, organizational and corporate boards.

Learn more about serving on Boards.

Go to the Resources for Nurses page on the Nurses on Boards Coalition website at:
