

## Equity Minded Team-Based Care

### Reading Guide: Part 1 – The Shift to Team-Based Care

1. Creating Patient Centered Team Based Primary Care (AHRQ, 2016)  
**Foundational Read.** Outlines the relationship between effective team based care and patient centered care. Provides foundational information, evidence and examples for implementation in practice.
2. Taking Team-Based Care to the Next Level (AAFP, 2022)  
**Physician Focused Perspective.** Provides direction for physicians to effectively participate in team-based care. Describes ways physicians can focus their role while empowering other team members in their roles. Outlines 6 roles to consider when expanding the team as well as 7 strategies that can optimize team-based care.
3. Integrative Team-Based Care to Improve Clinical Outcomes (NNCC, 2018)  
**Evidence-based Implementation Recommendations from the National Nurse-Led Care Consortium.** Lays out evidence-based approaches health centers can use to implement and support team based care including team member role development.
4. Team-Based Care to Improve Blood Pressure Control (CDC, 2024)  
**Practice Example.** Outlines equity minded Team-Based Care as an effective way to improve blood pressure and reduce cardiovascular risk that includes patients of color who are a disproportionate risk.
