# The National RN Case Manager Certificate Program

**Registered Nurses who successfully complete this Program will be able to:**

- Demonstrate essential knowledge needed to perform emerging roles in case management, care management and care coordination across healthcare settings.
- Utilize evidence based strategies consistent with national initiatives designed to ensure patient centered care delivery, address social determinants of health, and support health equity.
- Use new knowledge to implement RN Case Manager and Advanced Care Coordination role development into practice.
- Meet CE eligibility requirements for specialty credentialing through ANCC, the American Nurses Credentialing Center, and for recertification with ANCC and CCMC, the Commission for Case Manager Certification.

## What Nurses are Saying:

*"This Program has given me more tools and resources for better managing patients with chronic conditions and addressing social determinants impacting their health. I have gained a lot of knowledge and I'm looking forward to practicing the skills learned."*

**— Jane K. RN, RN Case Manager**

*"There has been so much new material and knowledge obtained, where do I start to list how I will use this new material!"* — **Kelli M.**

**BSN RN, Transitional Care**
