

## National RN Population Health Nurse Certificate Program

### Reading Guide: Evidence, Prevention & Public Health Concepts

1. Public Health Interventions (Population-Based) (Minnesota Dept of Health, 2019)  
**Intervention Guide.** This manual outlines the public health intervention wheel & provides detailed information on interventions for each level and wedge of the wheel. This resource is the companion to the Public Health Intervention Wheel tool you received in Topic 5: Integrating Public Health with Population Health resources.
2. Wisconsin State Health Assessment (WI Dept of Health Services, 2020)  
**Full Report.** This report describes the process and results from the 2020 Wisconsin State Health Assessment. This is a State example of public health 3.0 that describes strategies for addressing social determinants of health to achieve equity that will support population health.
3. Wisconsin State Health Improvement Plan (WI Dept of Health Services, 2023)  
**Summary Report.** This report outlines the Wisconsin Health Improvement Plan priorities for addressing social determinants of health to achieve equity that will support population health.
4. Wisconsin State Health Improvement Plan 2023-2027 (WI Dept of Health Services, 2024)  
**Implementation Guide.** Provides strategies to address the priority areas of the state health plan with an emphasis on equity for populations/communities.
