National RN Population Health Nurse Certificate Program

1

## Overview

*"Nurses are ubiquitous in population health practice, making contributions consistent with the profession's skills, values, and well-earned positive reputation with the public."*

National RN Population Health Nurse Certificate Program

2

## What is an ALC?

"A group of individuals from different organizations who come together to work on a shared problem or goal."

National RN Population Health Nurse Certificate Program

3

## Risk Stratification Case Example

Midwest Regional Health System

National RN Population Health Nurse Certificate Program

4

## Midwest Regional Health System

Midwest Regional Health System (MRHS) manages a patient population of 250,000 individuals across urban and rural settings. To optimize resource allocation and improve patient outcomes, MRHS implemented a comprehensive risk stratification model that considers multiple factors including clinical conditions, utilization patterns, and social determinants of health

National RN Population Health Nurse Certificate Program

5

## Risk stratification methodology

|   |   |
|---|---|
| <p><b>Clinical factors (0-50 points)</b></p> <ul style="list-style-type: none"> <li>• Chronic conditions</li> <li>• Disease severity</li> <li>• Medication complexity</li> </ul> <p><b>Utilization patterns (0-30 points)</b></p> <ul style="list-style-type: none"> <li>• ED visits</li> <li>• Hospitalizations</li> <li>• Readmissions</li> </ul> | <p><b>Social determinants (0-20 points)</b></p> <ul style="list-style-type: none"> <li>• Housing stability</li> <li>• Transportation access</li> <li>• Social support</li> <li>• Food security</li> </ul> |

6

| Risk Level          | Score Range | Population % | Description  | Intervention Strategy   | Annual Cost Per Member |
|---------------------|-------------|--------------|--|---|------------------------|
| Level 1 (Very High) | 80-100      | 5%           | Multiple chronic conditions, frequent hospitalizations, significant social needs | <ul style="list-style-type: none"> <li>Intensive care management</li> <li>Weekly outreach</li> <li>Home visits</li> <li>Social worker assignment</li> <li>Regular care management</li> </ul>  | \$25,000+              |
| Level 2 (High)      | 60-79       | 15%          | 2+ chronic conditions, moderate hospital utilization, some social needs          | <ul style="list-style-type: none"> <li>Monthly check-ins</li> <li>Telerehealth monitoring</li> <li>Community resource connection</li> <li>Disease management</li> <li>Quarterly check-ins</li> <li>Education programs</li> <li>Preventive care focus</li> </ul> | \$12,000-24,999        |
| Level 3 (Rising)    | 40-59       | 30%          | Single chronic condition, occasional ED visits, minimal social needs             | <ul style="list-style-type: none"> <li>Annual wellness visits</li> <li>Health risk assessments</li> <li>Preventive screenings</li> <li>Self-management tools</li> </ul>   | \$5,000-11,999         |
| Level 4 (Low)       | 0-39        | 50%          | Generally healthy, minimal healthcare utilization                                |   | \$500-4,999            |

7

**Clinical Factors Scoring Details**

NATIONAL Registered Nurse Practice Development Center LLC  
National RN Population Health Nurse Certificate Program

8

### Chronic Conditions (0-25 points)

Each major chronic condition : 5 points

- Diabetes (HbA1c > 7.0)
- Heart Failure (Class II-IV)
- COPD (FEV1 <80% predicted)
- End-Stage Renal Disease
- Advanced Cancer

Each minor chronic condition: 2 points

- Hypertension
- Hyperlipidemia
- Obesity (BMI >30)
- Depression
- Anxiety

NATIONAL Registered Nurse Practice Development Center LLC  
National RN Population Health Nurse Certificate Program

9

### Disease Severity (0-15 points)

**Disease Control Status**

- Poor control: 5 points per condition
- Moderate control: 3 points per condition
- Well-controlled: 1 point per condition

**Recent Acute Events**

- Major event within 3 months: 10 points
- Major event within 3-6 months: 5 points
- Major event within 6-12 months: 2 points

NATIONAL Registered Nurse Practice Development Center LLC  
National RN Population Health Nurse Certificate Program

10

### Medication Complexity (0-10 points)

- 10 or more medications: 10 points
- 7-9 medications: 7 points
- 4-6 medications: 4 points
- 1-3 medications: 2 points
- High-risk medications: +2 points each (anticoagulants, insulin, opioids)

NATIONAL Registered Nurse Practice Development Center LLC  
National RN Population Health Nurse Certificate Program

11

### Utilization Patterns Scoring (0-30 points)

**Emergency Department Visits**

- 4+ visits in past year: 10 points
- 2-3 visits in past year: 7 points
- 1 visit in past year: 4 points
- No visits: 0 points

**Hospitalizations**

- 3+ admissions in past year: 12 points
- 2 admissions in past year: 8 points
- 1 admission in past year: 4 points
- No admissions: 0 points

NATIONAL Registered Nurse Practice Development Center LLC  
National RN Population Health Nurse Certificate Program

12

### Utilization Patterns (cont.)

#### Readmissions

- 30-day readmission within past 3 months: 8 points
- 30-day readmission within past 3-6 months: 6 points
- 30-day readmission within past 6-12 months: 4 points
- No readmissions: 0 points

National RN Population Health Nurse Certificate Program

13

### Social Determinants Scoring (0-20 points)

#### Housing Stability

- Homeless: 5 points
- Unstable housing: 3 points
- Stable but not unaffordable: 2 points
- Stable and affordable: 0 points

#### Transportation Access

- No reliable transportation: 5 points
- Limited public transportation: 3 points
- Reliable public transportation: 1 point
- Personal vehicle available: 0 points

National RN Population Health Nurse Certificate Program

14

### Social Determinants (cont.)

#### Social Support

- No support system: 5 points
- Limited support system: 3 points
- Moderate support system: 1 point
- Strong support system: 0 points

#### Food Security

- Severe food insecurity: 5 points
- Moderate food insecurity: 3 points
- Mild food insecurity: 1 point
- Food secure: 0 points

National RN Population Health Nurse Certificate Program

15

## Implementation Strategy by Risk Level

Intervention Design

National RN Population Health Nurse Certificate Program

16

### Level I: Very High Risk

#### Possible Interventions:

- Dedicated case manager assigned (1:50 ratio)
- Weekly contact at minimum
- Comprehensive care plan review monthly (may include care team)
- Home-based primary care when needed
- Integration with community services (PHIN and CM share information with outside service providers)

National RN Population Health Nurse Certificate Program

17

### Level II: High Risk

#### Possible Interventions:

- Care manager oversight (1:150 ratio)
- Monthly contact at minimum
- Care plan review quarterly
- Regular specialist coordination
- Medication management support

National RN Population Health Nurse Certificate Program

18

### Level III: Rising Risk

Possible Interventions:

- Population health nurse oversight (1:500 ratio)
- Quarterly outreach
- Disease-specific education programs
- Digital health monitoring
- Lifestyle modification support

NATIONAL Registered Nurse Population Health Nurse  
National RN Population Health Nurse Certificate Program

19

### Level IV: Low Risk

Possible Interventions:

- Annual wellness focus
- Digital engagement tools (phone apps, My Chart messages)
- Health education resources (group classes, virtual coaching)
- Preventive care reminders
- Self-management support

NATIONAL Registered Nurse Population Health Nurse  
National RN Population Health Nurse Certificate Program

20

### Cost Analysis

Return on Investment

#### Cost-Benefit Analysis

Cost-benefit analysis is a methodology for evaluating the pros and cons of major projects, investments, and policy changes by quantifying and comparing costs and benefits in monetary terms.

NATIONAL Registered Nurse Population Health Nurse  
National RN Population Health Nurse Certificate Program

21

### Program Implementation Costs

Staff costs

- Care managers and PHINs : \$1.2 M
- Social workers: \$400K
- Support staff: \$200K

Technology infrastructure: \$500K  
Training and development: \$200K  
Community partnerships: \$300K  
Total: \$2.8M

NATIONAL Registered Nurse Population Health Nurse  
National RN Population Health Nurse Certificate Program

22

### Cost Savings Calculation

|  |   |
|--|---|
| <p><b>Reduced ED visits</b></p> <ul style="list-style-type: none"> <li>• Baseline cost per visit: \$1,200</li> <li>• Reduction in visits: 22%</li> <li>• Annual savings: \$850K</li> </ul> | <p><b>Reduced Hospitalizations</b></p> <ul style="list-style-type: none"> <li>• Average cost per admission: \$12,000</li> <li>• Reduction in admissions: 18%</li> <li>• Annual savings: \$1.5M</li> </ul> |
|--|---|

NATIONAL Registered Nurse Population Health Nurse  
National RN Population Health Nurse Certificate Program

23

### Cost Savings (cont.)

|  |   |
|--|---|
| <p><b>Improved Medication Management</b></p> <ul style="list-style-type: none"> <li>• Reduced pharmacy costs: 12%</li> <li>• Annual savings: \$450K</li> </ul> | <p><b>Reduced Specialist Visits</b></p> <ul style="list-style-type: none"> <li>• Average cost per visit: \$200</li> <li>• Reduction in unnecessary visits: 15%</li> <li>• Annual savings: \$400K</li> </ul> |
|--|---|

NATIONAL Registered Nurse Population Health Nurse  
National RN Population Health Nurse Certificate Program

24

### ROI Calculation

Return on Investment (ROI) =  $\frac{\text{Net Return}}{\text{Cost of Investment}}$

**Total savings: \$3.2M**

ROI = (Net program benefits – program costs) / program costs x 100  
 ROI = (\$3.2M - \$2.8M) / \$2.8M x 100 = 14%

**Population Health benefits occur over time/years - requires a rethink of current "ROI"**

NATIONAL Registered Nurse Population Health Nurse Certificate Program

25

### Quality Metrics Impact

NATIONAL Registered Nurse Population Health Nurse Certificate Program

26

#### Clinical Outcomes

- HbA1c control improvement: 15%
- Blood pressure control improvement: 18%
- Medication adherence improvement: 222%

#### Patient Experience

- Patient satisfaction scores: +18%
- Provider satisfaction scores: +22%
- Care plan adherence: +25%

#### Operational Efficiency

- Reduced wait times: 30%
- Improved appointment scheduling: 35%
- Reduced care gaps: 28%

NATIONAL Registered Nurse Population Health Nurse Certificate Program

27

### Implementation Results

NATIONAL Registered Nurse Population Health Nurse Certificate Program

28

### After one year of implementation

- 22% reduction in ED visits among Level I patients
- 18% decrease in hospital readmissions
- 15% improvement in chronic disease management metrics
- \$3.2M in total cost savings

NATIONAL Registered Nurse Population Health Nurse Certificate Program

29

### Key Success Factors

- Integration of clinical and social data for comprehensive risk management
- Regular recalibration of risk scores (quarterly)
- Customized intervention strategies for each risk level
- Strong community partnerships for addressing social needs
- Robust data analytics infrastructure

NATIONAL Registered Nurse Population Health Nurse Certificate Program
